THE DRIVE TOWARD EXCELLENCE

BE OPEN MINDED

Continually look for ways to improve yourself
If it is the right thing to do, then do it regardless of
how difficult it may appear or the personal sacrifice
it takes

BELIEVE

Never underestimate the power of your mind
People create what they believe
If you believe you will succeed, you will. What happens
after is not magical. It happens because you will behave
and act differently

TAKE ACTION

Don't wait for things to change
Things will only change if you make it happen
In doing so, take clear, consistent, focused action

THE BEST WAY TO SOLVE A PROBLEM IS TO OVERWHELM IT

Any time you face a challenge, think of as many ways as
possible that you can overcome it. List them. Prioritize
them. Then do as many of them as you can, as fast as
you can. This becomes a very powerful tool. A problem
is simply a challenge waiting to be conquered.
